URBACT in a nutshell

- ◆ **European Territorial Cooperation programme (ETC) co-financed by ERDF and by MS/PS of the European Union**
- ◆ Main objective: To promote integrated and sustainable urban development in European cities
- ◆ Target: Decision makers and practitioners in the cities

3 main strands of activities

TRANSNATIONAL
EXCHANGE & LEARNING

CAPACITY-BUILDING

CAPITALISATION
DISSEMINATION

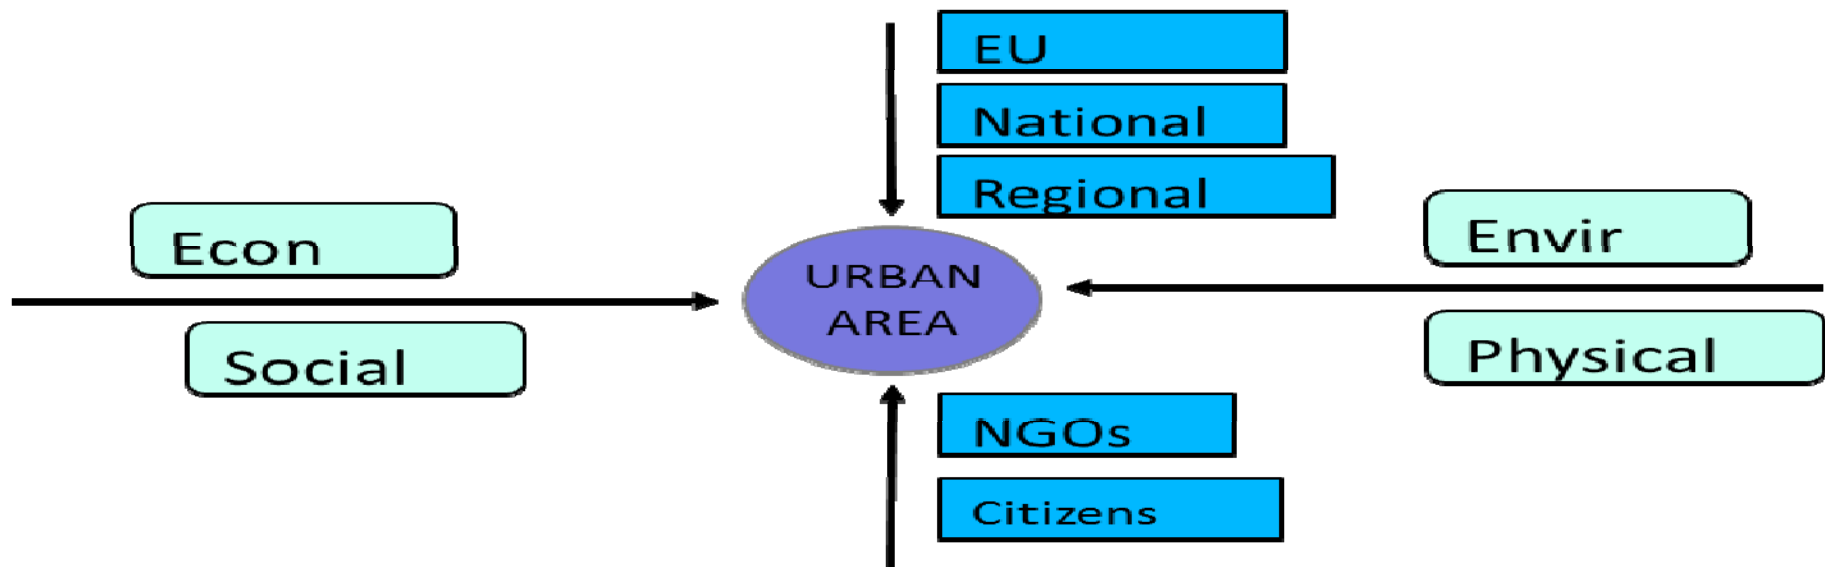

What are the key elements to achieve sustainable urban development?

1. Integrated Approach

Horizontal integration = combining physical, economic, social & environmental interventions

Vertical integration = cooperation between all levels of government and local players (local administration, civil society, private sector, etc.)

Old style science park or new style knowledge district

NON INTEGRATED

- ◆ Out of town
- ◆ Poor public transport links,
- ◆ Poor energy standards
- ◆ Half let, not much science
- ◆ All ERDF, mostly physical

INTEGRATED

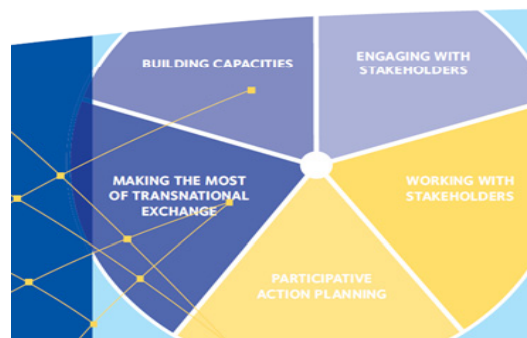

- ◆ Linked to smart specialisation strategy
- ◆ A real part of the city
- ◆ Mixed use development,
- ◆ Clubs, cafes, bars, restaurants
- ◆ Walking, cycling, tram
- ◆ Creches and local services
- ◆ Triple helix agency between city, university with businesses
- ◆ ESF and ERDF

2. Participatory approach

- 🏠 Involving local stakeholders
- 🏠 City departments
- 🏠 Other tiers of government
- 🏠 Users & beneficiaries
- 🏠 Change agents
- 🏠 Delivery agents

Support Group Toolkit
June 2013

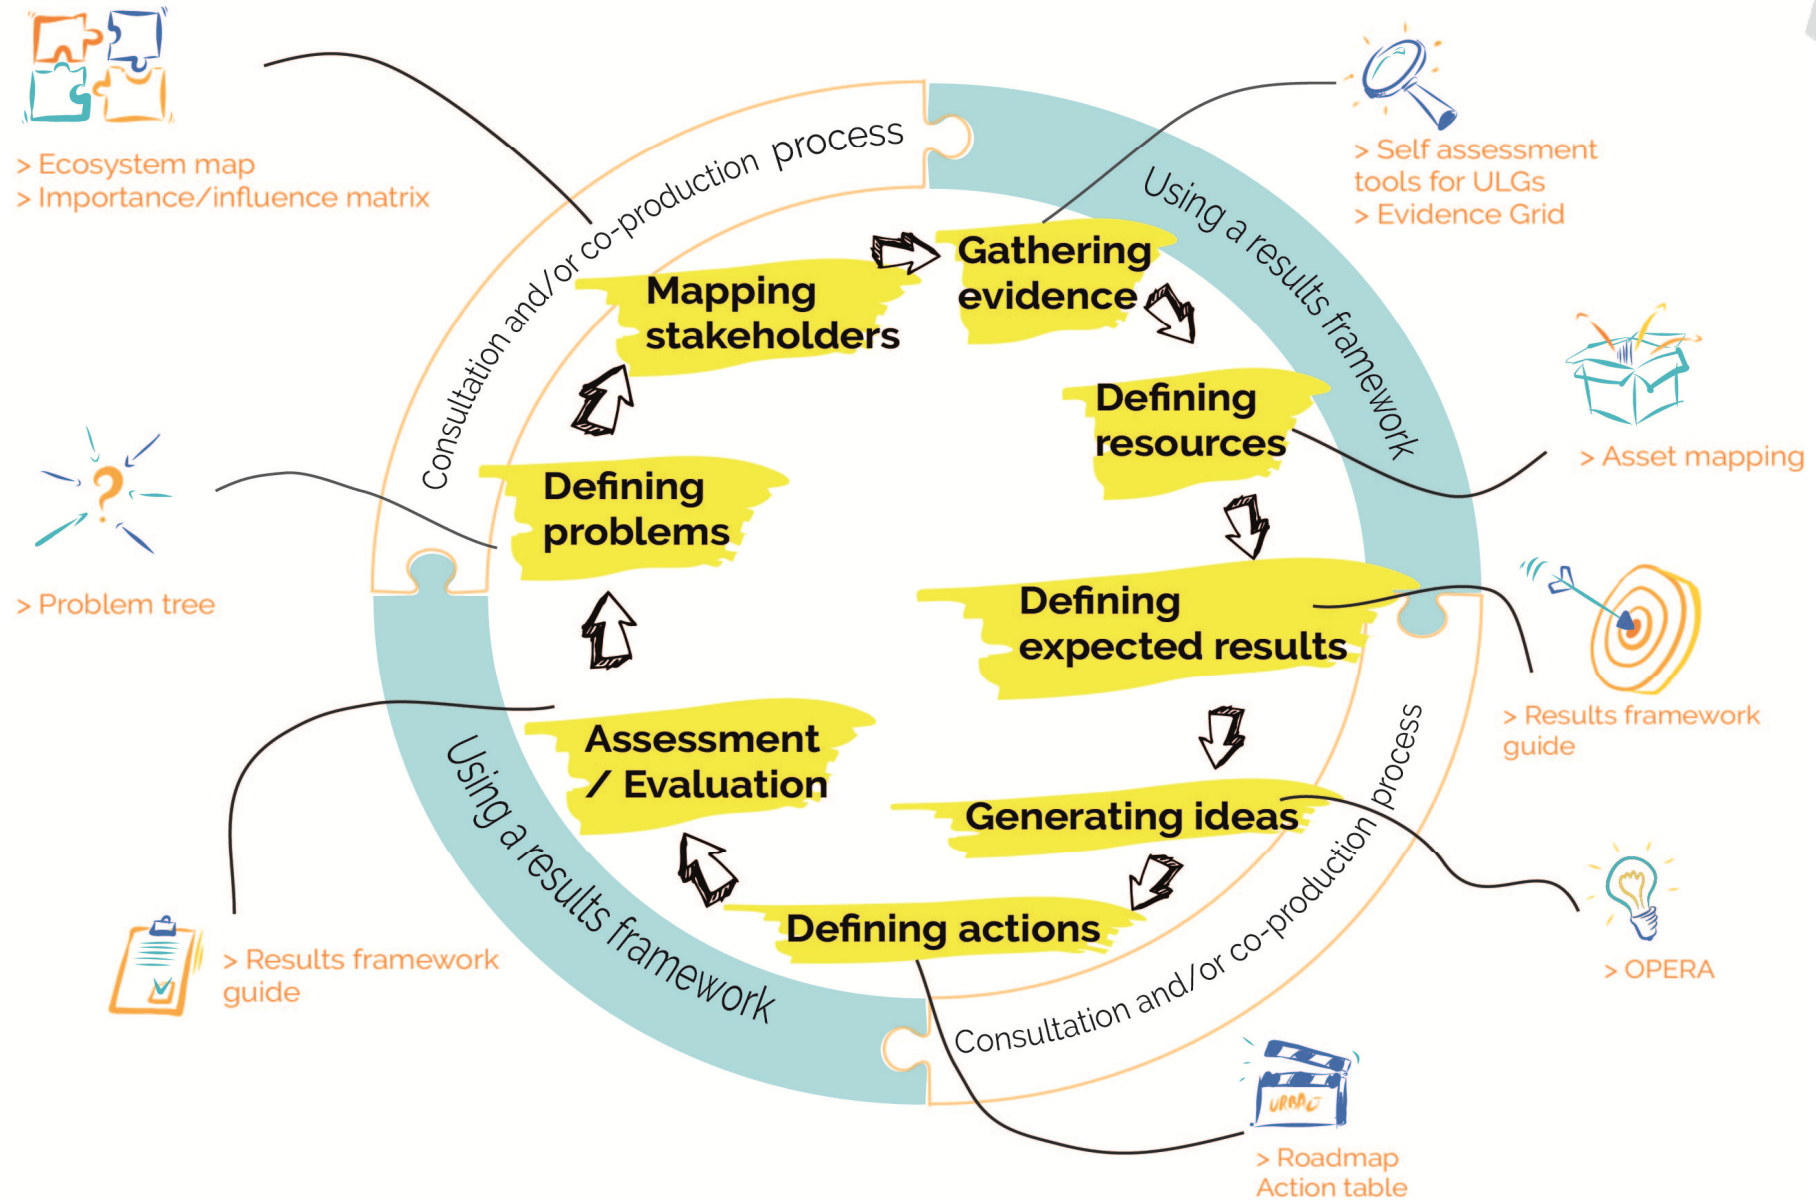

3. Defining an intervention logic to your actions

The intervention logic

ACTION-PLANNING CYCLE

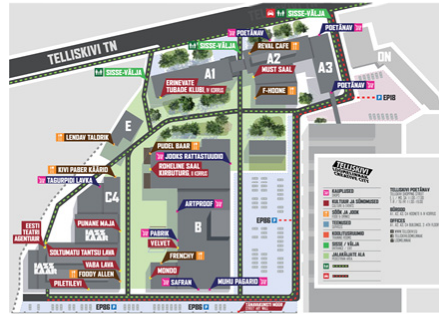

Join URBACT!

- ◆ Make use of our tools and guidelines on www.urbact.eu
- ◆ Learn from good city practices to be published on the URBACT website mid-June
- ◆ Transfer, adapt and reuse one good practice to your city through the Transfer Networks (call to be launched in September 2017)

Participate in City Festival 4-5 October 2017 in Tallinn

URBACT Good Practice Cities show case event
